meet learn connect discuss

Join us to

meet other teacher candidates,
learn more on teaching theory and
teaching methodology,
connect theory and practice,
discuss latest research results with
educational experts.

The **International Education Week** offers ideal opportunities to meet and study with teacher candidates from other countries. Participants work with experienced professors from the University of Tübingen on essential topics of teacher education. They get insight from researchers and expert practitioners.

Topics

- Educational Sciences
- Subject-Specific Teaching Theory (Fachdidaktik) and Methodology
- Current Issues of Teacher Education
- Exchange of International Perspectives
- Educational Systems
- Teaching and Learning
- Connecting Theory and Practice

Structure

The program includes subject-specific classes as well as expert lectures and interdisciplinary group work. Choose ONE subject track for the academic program:

- English Studies
 - Educational Philosophy
 - Ethics and Sustainable Development
- The language of instruction is English.

Application

Teacher candidates from Tübingens' partner universities are invited to apply. Please find all application details on www.uni-tuebingen.de/en/95235
Application is open until: April 15, 2019.

Housing

Participants are provided housing opportunities for the whole week.

Financial Support

This project is funded by the DAAD with financial support of the Federal Foreign Office. Successful applicants can receive financial support for travel and housing expenses, further details are described on the website.

Hosting Institution

The **International Education Week 2019** is hosted by the Tübingen School of Education (TüSE).
